When do you propose to start your monograph on the Sex Life of the Lower Forms of Life – Bacteria et cetera. This would – as I see it – put you in. ¶ It most

recent issue of the
Proc. National Academy
contains a lot of
genetics and one
article by the Dutchman
Kluyver on the Fe figment
of Candida Pulcherrima
which interested me very
much - As soon as I get
a reprint of this article -
you can have the whole

for '54
I just paid my 10 bucks
to 210 Constitution Ave
so the catalogue will keep on
coming. Cordially
