Your invitation as Vis. Prof. 10/21

You could not know of my earlier connections with your institution.

Over 40 years, for a few months, I worked as deputy assistant elevator operator.*

Today I am not sure what I can bring to you, as I have never been in medical practice; and I could not easily break away a full day.

If another format would be of interest to you, please let me know, and I will see what I can work out.

Best wishes
