Dear Leo —

As you know I am deeply interested in your purposes, and in supporting the impact of your own intelligence on these issues. However, I have enough reservations about the tactical conceptions of the movement to wish not to be formally identified as an associate at this time. I hope to remain informed of your ideas, and perhaps to use other channels to further common objectives.

Perhaps the enclosed contribution, to use in any way you see fit, will be of some use.

With best wishes

Joe Lederberg
