Pretoria.

JUL 30 1964

7/29/64

Dear Josh, The first thing that greeted me on my arrival in S.A. was a request for a tape recording on some general scientific topic for a 10 min. evening broadcast over the South African Radio.

I finally decided to describe briefly our Spring Quarter faculty seminar and I am enclosing a copy of the MS. so that you know what transpired. Knowing your sensitivity to the Nobel prize, I hope you will forgive my brief mention of it.

We have so far spent a week in Pretoria and it has been most instructive. I am impressed by our useful ignorance of South Africa and her problems. While I am no converter to apartheid, I am learning quite a great deal about it — especially about aspects that we never read about in our papers. I am looking forward to telling you about this.

My best regards to Esther and to you,

Carl
