Professor J. Lederberg.
Department of Genetics.
University of Wisconsin
Madison, Wisconsin U.S.A.

Dear Dr. Lederberg, I would very much appreciate receiving a reprint of your article "Bacterial protoplasts Induced by Penicillin.", P.N.A.S. 42. 574. 1956

I don't know if Professor Rubbo has mentioned it, but I am joining his department in March this year. I look forward to meeting you and your wife during your visit to Australia.

Yours sincerely

Bruce Holloway
