IN REPLY REFER TO

June 23, 1954

Dear Joshua,

I have been somewhat bogged down here so that I almost forgot about the ms. It has not been submitted for publication, but I had thought of sending it either to J. Bact or J. Gen. Microb. I would appreciate receiving the ms. back along with your comments.

I had been talking with Allen Campbell about going up to the U. of Mich. for the week you and Sol are on the symposium. However, there is some slight chance that I may be going to Japan in the middle of July for a few months to help in the isolation of dysentery cultures. If I don't go overseas, I will doubtless make the trip to Ann Arbor, in which case, Allen may come along.

If possible, I would appreciate hearing from you before the symposium. Thanks again.

Sincerely yours,

Leon

L. S. Baron
