CARNEGIE INSTITUTION OF WASHINGTON
DEPARTMENT OF GENETICS
COLD SPRING HARBOR, LONG ISLAND, N. Y.

May 21, 1931

Dear Dr. Lederberg,

I would be very happy to discuss my work on H-72 with you while you are here for the symposium. In fact, since the symposium is so close, I think it would be preferable to my sending the manuscript to you. I still haven't received it from Max but I suppose he's tied up with parenthood these days. His wife was supposed to have a baby sometime this week.

Sincerely

Edward J. Birkbeck.
