to Dr. Lederberg

OCT 18 1971

From the Desk of

10/14/71

David M. Mumford, M.D.

Just to say – I haven't evaporated into thin air! Mr. Ray, our sponsor, has had some "Gyn" difficulties which though quiescent may require a D+C. She is still quite eager to go to San Francisco in November or December to gather a group of individuals who may be willing to give support to the Center Concept –

I recall, November was not a particularly good month for you, but as soon as the local signals clear – I'll try to get in touch with you to see if there are any mutually agreeable dates –

– David
