Memo/Reply From
JOSHUA LEDERBERG

TO: Dr Richard Wilson

MAR 19 1980

Support for Comparative Toxicology Research.

In fact I saw John Deutsch at DoE a couple of days ago, and mentioned your name as a resource for helping DoE manage its research grants program in env. health effects. So your letter was timely! Why don't you call him to get the name of the relevant asst. secy. who is acting director for their health research.

Good luck,

eve: NYT.
