Dear Josh,

By now you've no doubt heard from Gordon Allen. I appreciate your offer to take ~~him~~ into your lab for a brief spell, & I hope the beginning of August will work out conveniently. Since his time for this project is strictly limited, he's extremely anxious to get started on his work with meningococci, but I've urged him to take advantage of your invitation for a couple of weeks, if possible.

I hadn't "forgotten" about the medium, but got so involved with the topics covered in Van Niel's course that I haven't got to my lab notes. Now that I'm reminded to look, it appears that the relevant ones aren't here. I'm sending to N.Y. tonight.

Best regards,

Bernie
