Dear Jack and Esther,
I do not take credit for the picture or poem on this card, since these are products of of my new children. They do, however, express my feelings about Christmas and I take this opportunity to send you my warmest wishes and greetings. I hope that we shall get to see you people some time soon (S.A.B. meeting?) I would like you to get to know my new family and, of course, if you come to San Francisco, to show off my beloved city. Yours as ever, Mike

I hope that the tree in your house gives the glow that it does in mine,

If it does, I know you'll have a very happy time.

Merry Christmas & a Happy New Year

1952 or 1953

Dorothy
