Dear Bill

Jan. 2, 1979

What a pleasant surprise to get your "Hanukah present" – and especially with the personal touch you gave it. I hope to use it in part to help pay for the journals and books that can assist in the conduct of my day to day responsibilities in my new office – which have to do now not only with science, and science affairs, but also executive oversight in a vein that is a new challenge for me – and for which I would certainly welcome your advice. If you have a spare hour soon, please let me visit you or vice versa: I do want to try out some of my visions of R.U.!

I am so glad that you have joined

JOSHUA LEDERBERG
PRESIDENT

our Council, and that you participate so vigorously already! I will certainly follow up your suggestion about Mr. Turner.

All the best, for 1979 and always,

Josh.

P.S. I am delighted to be able to write again -- if I wave up like a baseball pitcher (sic) my shoulder's not too stiff.

J
