Dr. J. Lederberg
Department of Genetics
University of Wisconsin
Madison, Wisconsin

Dear Sir:

I am a graduate student in the Bacteriology Department of the University of Kentucky and I hold a graduate assistanship here. At Indiana where I obtained my B.A. I took a course in general genetics under Dr. T. Sonneborn and now one under Dr. Riley. I am very much interested in your action and for this reason an assistanship during the summer in your department would be for me of great help.

Forgive me for asking your answer as soon as possible but my department must know about my destination this summer. Thank-you very much!

Truly Yours,

Hugo Hoenigsberg
