TÉL. SÉGUR 01-10

PARIS, le October the 18th

Dear Esther and Josh

Forgive me not to have sent you already the strains I had promised when I was in Madison, but we were very busy until now with visitors coming from various congresses in Europe and we are just starting again our cultures now. As I told you we have an Y10 and a W-705 λ sensitive (Lp, S) but unfortunately no W-677 Lp, S. Elie, who is in charge of these strains will send them very soon.

I had a very good end of my journey in the States and came back in France at the beginning of August. I especially enjoyed these two days with you in Madison and found them too short for my taste. I hope to have soon a new occasion to meet you in any side of the Ocean. Jacques got finally his visa and will probably go to the States in January.

Thanks again for your letter.

Sincerely yours

François
