DR. L. JARVIK

11/4/69

Dear Dr. Lederberg,

At the Panel on Drugs of Abuse you expressed an interest in the data on intelligence and I am enclosing, therefore, a reprint of our review, in case we did not send you one earlier.

The panel meetings were stimulation-rich and it was a treat to listen to your pertinent summaries and critical insightful questions. I do hope that some worth while research will emanate from here. With best regards, Cordially, Lissy
