Institut Pasteur
28, RUE DU Dr ROUX - PARIS XVe
TÉL. : SÉGUR 01-10

Dear Josh

I send you under separate cover, a sample of two phags

363 which transducts markers of K12

434 which is close neighbour of λ on the bacterial chromosome, the closest from fad after λ.

I hope these will arrive in good condition. Please let me know if something was wrong with them.

We are very happy to ~~be~~ learn that your planning of coming to Paris next year is more precise and we hope very much to see you here. Tell us when you know more about it.

Best regards to Esther and yourself.

Yours sincerely

François
