Dr. Joshua Lederberg
The University of Wisconsin
College of Agriculture
Madison 6

Dear Dr. Lederberg

I have received your microfilms and reprints. I am very thank for your kindness.
Of the papers of microbial genetics, I have borrowed from Dr. Kikkawa.

I have read your article in "Bacterial Physiology" published at new York 1951.

I am talking with Dr. Kikkawa over the establishment of "Symposium of microbial genetics in Japan" — this name is tentative.

About my experiments of Shigella recombination, I will send my data to you nearly.
I confirm its evidence. Enclosed is a picture of the heterozygous diploid cell pated on EMB-mannit agar.

yours sincerely
Teten Nakayama
