Dear Dr. Lederberg,

To-day we sent strain 204 to you. I received it again from Dr. F. Kauffmann. In my paper I called it a B. coli, yet Kauffmann labelled it "Friedländer 204". I do not know which is the more appropriate designation. Of course, I also do not know what it's morphology will be like now. I will examine it as soon as I have time and will let you know. I hope it will be of some use to you. I hope your work is progressing satisfactorily and I am looking forward to seeing your new results in print.

Yours sincerely,

E. Nobel.
