1805 Rowley Ave.
April 21, 1950

Dear Dr. Lederberg,

I am very much interested in getting a summer job in a laboratory doing any work that is available. Two years ago I worked during the summer in the Physiological Chemistry Department, and Prof. Philip Cohen has kindly consented to give me a reference. I am now a second semester freshman and am taking both Chemistry and Zoology.

Sincerely,

Eva Perlman

will not be here.
