MINNEAPOLIS 14

DEPARTMENT OF PHYSIOLOGICAL CHEMISTRY

October 1, 1956

Professor Joshua Lederberg  
Department of Genetics  
College of Agriculture  
University of Wisconsin  
Madison 6, Wisconsin

Dear Professor Lederberg:

If you don't know what "K12S" is, there is very little likelihood that a biochemist like myself is going to find out. I strongly suspect that your wild-type culture which you sent will suffice for our purposes and we are proceeding with our studies accordingly.

Many thanks for your kind courtesy and help.

Yours sincerely,

P. D. Boyer  
Professor
