7/28/57

Dear Josh

Perhaps my letter was unclear. All of the cultures labelled B-X are B. The others except for D-84 are B/r. D-84 is B. The B-X series Gots sent me as cultures where he never observed reversion to prototrophy.

Thanks for the cold air mass. It got here Fri night.

Let me speak to Jane about a date for me to meet the cold air.

B is on its way.

Aaron
