Dear Francis

Thanks for your note. Also my congratulations concerning Churchill - All of us are quite pleased that again you will be near students!! Now I am reading exams and find frequent quotations from your lectures about the Dogma. Francois Gros is here and we are quite busy with ribosomes, both A.A. incorporation and RNA synthesis as revealed by pulse experiments - also hopes of understanding TZ RNA. All of us will be here the week before the Gordon Conf. and look forward to your visit

See you soon

Jim Watson
