Northport,
Long Island N.Y.
1st June 1953.

Dear Esther & Josh,

I want to thank you both for your kindness to me during my stay in Madison. I had many informative discussions with you & I am grateful for these & for the large proportion of your personal time that you devoted to me. I hope that I shall have the opportunity of returning your hospitality very soon in England so that I can demonstrate the full measure of my gratitude.

When I left Madison you seemed rather doubtful about coming to Cold Spring Harbor. I do hope, however, that you will come because I think that as Hayes' paper is in your subject, it would be to your advantage to deal with its implications on the spot & in the presence of the other workers who would benefit from your energies. For this reason & because I should like to see you again before I leave, I hope you will be at Cold Spring Harbor.

With kindest regards,

Audry.
