Dear Esther and Josh, you will excuse, I hope, this short writing, but as you can see from the thick envelopes Luca receives at the lab, all my free time is dedicated to write to him. It's such a long time I want to tell you how very grateful I am for all the cares you give to Luca and I am only too sorry not to be able to share them with him. But as I already could foresee last november, I do not see the possibility of leaving, without being too worried myself, all these children. After your wonderful puzzle, everybody, included myself played a lot with, now this beautiful bib for Violetta arrived. I am really moved by all these sweet thoughts of yours. The bib is most useful too, because Violetta is a very violent baby, also while eating, and she is enjoying it too, very much liking the embroiding and the cute little pocket. Do you remember some of the views of Milan on the back? If you like to have any of them bigger, there are separate post-cards which I will be very glad to send. I miss Luca terribly, more and more every day. So please work hard, and try to finish very successfully your common researches as soon as possible. Then send him back straight away. I so often think of you with great affection and dream of being able to come to Madison again sometimes myself. Love from
