Dr.E.M.Lederberg
Genetics Department
University of Wisconsin
Madison 6, Wisconsin

Dear Dr.Lederberg:

A few days before your culture of W-2364 arrived at Cold Spring Harbor I had to return to Germany after having worked for half a year in the CSH Dept. of Genetics.

So your parcel followed me and I got it a few days ago. First here I have to prepare the facilities needed for genetical work with bacteria. As soon as thereafter I shall get first results with your strain I shall be glad to inform you about.

With many thanks for your friendly help and my best regards

Sincerely yours

F.Kaudewitz
