Dear Josh,

Alan and I plan to arrive in Madison on February 13, by Northwestern R.R., at 9:38 PM. I can give the seminar on Thursday, and on Friday we can all go down to Susanne's together.

There is a rumor that a big-shot midwestern geneticist, from a state beginning with W, has taken a job at Berkeley. If you know who this is, would you please congratulate him for me?

Best regards to Esther,

Seymour.
