Sputnik

Dear Gen Abrahamson—

I enjoyed our discussion at the DSB dinner last week.

When you mentioned Sputnik as Oct. 23 1957, one of my circuits flashed; but memory is unreliable so I waited to recheck the history. It was Oct. 4, as I remember very well. I was in Melbourne; and Sputnik was visible to the eye in the Southern hemisphere a couple of days before the northern.

Sincerely,

Jim
