CARNEGIE INSTITUTION OF WASHINGTON
DEPARTMENT OF GENETICS
COLD SPRING HARBOR, LONG ISLAND, N. Y.

Sept 3, 1957.

Dear Joshua,

As you can imagine, I have thought very painfully about the possibility of moving. However, both Jill and I have decided that the idea of moving to Wisconsin is decidedly attractive. If you and your colleages should find a place for me, I would like to hear about it.

I should say, however, that if you yourself decide to move, I would probably decide to stay here.

There is, of course, no hurry on my side to make the decision.

We just had an unusually successful phage meeting. I don't know why, exactly, except that it was very well organized by Luria. I hope you and Esther are enjoying your visit to the bottom of the world

Sincerely

Al
