GENETICS DEPARTMENT
STANFORD UNIVERSITY
STANFORD, CALIFORNIA

TO: Dr William Johnson ~~TX~~ RC
Chemistry Department ~~RO~~
U. of Wisconsin A

4/19/69

Dear Bill —

Welcome and (if you don't mind my putting it this way) congratulations! I am looking forward to the constructive job I know you are going to do in Chemistry, and I particularly hope that we will not have to wait a time of leaving for us to get together on this campus.

I had a chance to meet Djerassi on his visit and am certainly looking forward to this association too!

If I can be of any assistance, personally or officially, during the next months please let me know. (I will be in Europe from about May 9 – June 15). There are of course any number of vacant areas of departmental interest, as between Chemistry & Genetics.

Yours cordially

Joshua.

JOHNSON, W.
