Dear Josh,

The girls made your groups:

A₁B, Ms/Ms, P₂, CDe/CDe (R₁R₁), Lu(a-), K-, Le(a-), Fy(a+), Jk(a+b+).

(We are a bit doubtful about the Jk^b result as our current anti-Jk^b is not very reliable)

It was nice to see you both and we did appreciate the wonderful talk on Monday afternoon.

Yours
Ruth and Rob
