PETERHOUSE,
CAMBRIDGE.

2.12.62

Dear Arthur & Josh,

Belated but very warm thanks for your telegram on the day of the Nobel Prize awards. I don't know whether I've been more overwhelmed to join your distinguished company or to receive so very many messages like yours. But as you will doubtless remember it is most gratifying & pleasant as well as overwhelming — at least, I shall feel it to be so when I've finished concocting my Nobel lecture.

All the best & again many thanks

Very sincerely,

John Kendrew
