JUN 11 1964

Tbilisi, 3/VI/64

Dear Josh,

I had a long talk with J. F. P. A. Miller before I left for this mission and found out that he would be quite amenable to an offer coming from Palo Alto. You may perhaps take this consideration and either at the University or with Alej you may find a place for him. He is an extremely capable and hard working individual and he will return to England for few months but his mind is set to come back to U.S.A.

His present address is the National Cancer Institute at Bethesda (with Lloyd Law).

Our mission is now on its way to Novosibirsk and then back to Moscow until 6/12.

NOPROWSKI

I shall leave for Stockholm Paris and possibly back home on June 25th unless my mother who lives in Nice will become worse.

With warmest regards and wishes to you and Esther.

Yours
Helen.

P.S. I have not heard from Alej before my departure.
