Memo/Reply From

JOSHUA LEDERBERG

TO: Kap

DEC 29 1980

(2) Bellevue Hospital for studies on workers exposed to chemicals.

We have had some brief discussion of this concept.

~~I'll be~~ I've also brought it up with Carter and with a number of people in industry and I believe it would have a lot of support.

It may be the only way to get data on metabolic disposition of various (toxic) compounds in the human.

J.
