Dear Barker

I am very sorry to hear that the conditions have been made impossible for you. The letter which you have written does credit to your heart & heard - more to the former. Certainly you have been hardly treated from the standpoint of

ordinary academic cour-
tesy. After a man has
held a chair for 8 years
with great distinction
to change the conditions
of tenure so as to make
it impossible is in my
opinion unjustifiable.
I hope Thayer will accept
as it will be simply swapping
stools & make no essential
difference to either Ffm.
He is a trump & it is
one of the greatest among
my many pineal

satisfactions that you & he have got in so well together. I am much worried & not a little disgusted with the whole business. It may work out better than we anticipate — I hope so.

Love to Mrs Barker & Hunt.

Tell Mr John H. under the 5th rib for me —

Yours ever

J.W.D.
