Dear Esther & Josh.

Madison
October 22
1957

Thank you for your letter.

We were very, very happy when we saw the itinerary which you sent to Dr Crow. Your arrival here Nov. 23 will give us time to discuss what we have done - and not done - this year and what we are going to do in Copenhagen. If we stay together for some few days as you have so kindly asked us to do, we will after that get time enough for a day in New York and perhaps for a visit to Washington and Bethesda.

Our reason for not writing sooner is that we have first two days ago got the final confirmation of our reservations for room on MS Stockholm leaving New York Dec 10.

The Frydenbergs left last Saturday and we shall move into your house Nov 1. Mrs Briner is informed about our arrival and will come and help us at that time. Frydenberg emptied the water system and left the thermostat at about 55 F°. (No frost in Madison yet). We shall inspect the house several times before we move in. We were out there yesterday and everything was OK. There were still many beautiful flowers in the garden. Our reason for not moving to Eugenia Av. earlier is of course Pernille and the closeness of the Lincoln School and of all her friends to our present at Prospect Place. — After our move to ys Mrs Link (the wife of our landlord) will take care of P after School hours.

We shall try to prepare a report on our work when as extensive as possible even if we are a bit discouraged about the meagerness of our results until now.

Looking forward to seeing you soon

Yours Ida & Puts.

Hope you will have a nice trip around the world.
