Dear Dennis:

"missing" — no mystery.

(Perhaps I should have said 'I miss "missing" you' — if you recall Licklider's 'missing' / non-meetings on line).

Well, let's see if we can put some impulse on to the static function: next time you're coming to Manhattan please call me and see if we can ad hoc a mtg.@ That's more likely than my diffusing to Pearl River

If that doesn't work, we'll try another tack.

Your LEDERBERG & SUMEX mail is now laboriously forwarded back to me at R.U. UNIX. I'm logged on constantly. Do you still have a SUMEX acct.?

@ or family supper at home

Dendral

Since I wrote you, I tried to exercise CONGEN; but it doesn't really run now on TOPS 20. (Try it!) I was moved partly by trying to demonstrate its logic to David who's into Organic at Harvard, tonight, as you know, rather sadistically. But he seems to enjoy the subject notwithstanding.

Hope to see you soon,

Yours,

Jon.
