June 23, 1954

Dear Josh -

I'm sending another culture of 153.4 because of the mixup in numbers to make sure we sent the correct culture. I believe the label on the tube ~~was~~ (154.4) was wrong - 154.4 is white. I noticed our last slant of 153.4 had a lot of white reversions popping up - so we've restreaked and are sending a reisolated stock. These strains are far enough removed from carlsbergensis that we've had no difficulty with conversion. Caroline R.
