Dear Joshua:

Your letter of July 5 relative to crossing over came during our busy corn season and I was not able to write you about it before. Our group here at Nevis did spend some time discussing your "Operator notation" and a number of points were raised which I would like to discuss with you rather than try to write them out. Could we arrange to meet in N.Y.C. some time during the last part of August? Or could you arrange to pay us a short visit here at Nevis — the sooner the better.

Best wishes,

M. M. Rhoades
