Dear Mr. Lederberg -

Would you please send me a reprint of "Gene Recomb. + Linked Segregations in E. Coli?" Am interested in your work, + would appreciate being put on your reprint list. When you send it, could you slip in a note telling news of the Bonners? They coming out here with Tatum?

Best regards to your wife. Tell her I was recently at Cal. Tech., + found the same - except that the Boss can't find time for research! — B. Wright.
