Dear Dr. Lederberg:

SEP 2 1966

Thanks very much for the 4 new reprints on DENDRAL, which arrived just in time for a rousing reading on the Labor Day weekend!

Did you ever have time to comment on the "Adamantine Dodecacycloid" pictures & discussion I sent you about a year ago? It should be OK for CWIK-List News copy, if nothing else!

Best regards,

Bill Wisnesser
