Robert H. Alway, Dean
School of Medicine

Joshua Lederberg

Cavalli

Dear Bob:

No, I haven't forgotten about channels and it is well understood that the executive faculty would, should and must review the appointment. I hoped the letter was cagey enough to imply such a reservation without instilling perturbing doubts; if not, I apologize and will accept responsibility for any mishaps or misinterpretation.

I will set up the form, but I suggest that it stay in your hands until we have some affirmation from him.
