Memo from JOSHUA LEDERBERG *To:* Dr Loop

NOV 19 1971

Radiation

Please favor me with a copy of: NEJM 284:386. 2/4/71

Do you know of any other studies on cost-effectiveness of radiography?

Isn't it worth $5000 (434 X-rays) to find a fracture not otherwise detected?

On the other side, how many genetically and cancer-significant rems are also involved! (at $100/rem does this change the calculus?
