I am sorry that it is so difficult, in the event, to adhere to any schedule for a trip fixed in place and time to meet your reasonable needs for certainty of fulfillment. Much as I would like to revisit Munich (I did manage to get there in spring 1983) I will have to decline.

Thank you for your favorable comments on my ITT talk.

Don't you want to ask Penny Nii or Ed Feigenbaum or Ted Shortliffe?

Sincerely,

Joshua Lederberg
