Dr. Harry Woolf

MAR 25 1981

Thank you for sending me the Einstein commemorative and the (most impressive!) directory of 50 years of the Institute.

I was briefly puzzled by the inclusion of the texts — sample attached. — is some redundancy

I wondered if you were continuing our Kabbalistic discussion!

Finally it was clear that these were signatures of "The Symbolic Quest" presumably just another paper used for wrapping!

Where we must look in our quest for meaning!

Yours,

MAR 30 1981

P.S.

Please let me know next time you're nearby and we could have our beers together

I need some counselling on how to think about intercultural/religious cooperation + development.

John.
