June 5, '81

Dear Jah

I traveled to Cincinnati & saw Dr Chas Glueck - a lively dynamo (son of the famous Nelson Glueck the Hebrew scholar & archeologist) and had a 2 hour conference with him & will report to you when I see you on Monday June 22 at 4:00 P.M. Also saw Joan Fisher Cox (daughter of Sir Ronald Fisher) & had a long visit with her & then she was my guest for dinner at the Edgewater Hotel. Surely you must remember it - down by the lake.

Henry Kunkel tells me that Dr H Kaplan's evening lecture was not well attended because his 1:00 P.M. lecture at MSKI drew a packed audience.* In the past we have been requesting our guest speaker to visit selected scientists on the campus. In any event his talk (8:00 PM) was most stimulating & demonstrated that ~~a more~~ this radiologist can readily handle sophisticated immunologic procedures.

The dinner was delightful & I had Marguerite represent you

Yours
Phil

*for his lecture on Hodgkin's disease
