

June 2, 1960

Dr. Edouard Kellenberger
Laboratoire de Biophysique
Université de Genève
Quai de l'Ecole-de-Médecine 24
Geneve, Switzerland

Dear Edouard:

I am surprised you don't have the reprint, which is now enclosed. Are you missing any other recent papers (e.g. in the bibliography of "A view of genetics"?)

We would look forward very much to coming to Geneva; however it would not be a matter of 1960-61, so you need not be concerned to save space. We should be able to give you a year's notice of it to make sure of any arrangements.

We likewise enjoyed your visit and have felt greatly enlightened in understanding the bacterial nucleus.

With best wishes,

Joshua Lederberg
