DEPARTMENT OF BIOLOGICAL SCIENCES

Dear Josh:

One other person who might have input on Ed Tatum is Harry Blinks. He was one of the "BIG FOUR" that C.V. Taylor brought to Stanford (the others: Beadle, Whitaker + Twitty). Blinks has a phenomenal memory - if you still need to check on some things you might want to contact him at Hopkins. He may recollect things we don't. He liked Ed Tatum and invited him to teach at HMS.

Herb Little said there are no files on Ed Tatum in the attic or basement - closing that possibility. John Thomas has a copy of Baumberger's "History of the Biol. Dept." The secretary (Gretchen Montalbano) will try to get it soon + make a xerox for you.

Sincerely,

Art
