Stockholm, January 19, 1960

Professor Joshua Lederberg
Department of Genetics
Stanford University
Palo Alto
California
USA

Dear Joshua:

Thank you very much for the letters of invitation which will be very helpful and also for your beautiful card from Nice. It was almost incredible to imagine the snow on those beaches.

Unfortunately, I have not known of the symposium in London in April before, and it is too late to arrange anything now. If you would have any chance to come this way, we would be most happy to have you and I am sure that we could arrange for your travel and living expenses between London and Stockholm. You may be interested to hear that we have finally solved the problem of a visiting professor; after much correspondence Bertani has accepted to come September 1, 1960. His wife will be with him, and they will both stay here a year.

With warm greetings, also to Esther,

Yours as ever,

George
