Professor Joshua Lederberg
Department of Genetics
Stanford University
Palo Alto, California
USA

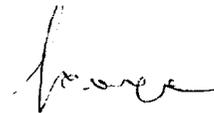

Dear Joshua:

Thank you very much for your note from the plane. I am including the manuscript of Möller and both he and I would be most grateful for comments and criticism.

I was sorry to hear that you could not fit in Stockholm; we shall certainly renew this invitation. It would be wonderful to see you in Bar Harbor. I don't think I shall be able to stay in the United States for longer than about September 14 but I would be most anxious to discuss with you about next year if there is any possibility. We can wait until the Summer and see whether your plans permit that we meet somewhere. I do not think there will be any other occasion for my coming to the States this year.

Warm greetings, also from Eva, also to Esther,

Yours as ever,

George Klein
