Memo from

JOSHUA LEDERBERG

To: Fred Terman
174 McCullough.

Request for help on E.L. Tatum memoir

Dear Fred:

I am having a particular problem clarifying Ed's role vis-a-vis the Dept. of Biochemistry at the time the medical school move was being planned (1955-1957) I am hoping you might still have files of the advisory/search committees you chaired at that time; or that you might recall something of the events.

May I call you next week?

Thank you

Joshua Lederberg
